

# Joshua Urban :)

Project Management expert transitioning into a technical data role. After my graduation from the UNC Data Analytics Bootcamp, I would love to bring my experience, positivity, and humor into Data Analytics and Science, to explore, learn, and grow technical skills focusing on Data Engineering, Cleaning, Machine Learning and emerging technologies in this area.

## EXPERIENCE

### Nox Health, Remote — *Project Manager*

December 2020 - PRESENT

Led kickoff of company's first Crossfunctional Team (XFT). Provided Project Management and Agile process implementation as shared service.

### Industrial, Raleigh, NC — *Software Project Manager*

March 2018 - December 2020

Served as Lead Project Manager for Engineering Organization balancing internal products (IOT, ETL, Big Data Management) while interfacing with partnering clients.

### rewardStyle (LTK), Dallas, TX — *IT Project Manager, Agile Coach*

September 2015 - March 2018

Executed company initiatives as a Scrum Master of many different tech teams in a platform driven company. Grew into an Agile Coach role establishing engineering practices and enabling the product team through a major growth phase of the company.

### Previous Experience;

- Consulting experience with **KPMG** (2014-2015) and led the creation of a cloud platform using agile project management for AT&T users.
- Managed major connection projects for **Sabre** (2012-2014) in a Waterfall/Agile methodology.
- Grew to the role of Senior Analyst managing teams for hardware, software, and IT solution projects with **Citibank** (2010-2012).
- Solving complex problems inside the Data Center as a Technician with **The Planet (Softlayer / IBM)**, 2009-2010).
